To preach the gospel in the regions beyond you...
2 Cor 10:16

Dear Churches, Pastors, and Friends,

March-April 2024

Greetings to All!

Thanks to all of you who prayed for me during my recovery from surgery. I am doing great! Three trips were planned during this time: two to a Hispanic country and one to the Amazon. They were well covered while I was recuperating. The trip to the Amazon was a first-time training session. About 200 people attended, and it was very productive. One humorous story, there is not any beef or pork available, there are no roads into that jungle area; and fish is the main staple food source. After two days the American pastors asked for hot sauce. Hot sauce is not normal for this area, but a sister went to her house and brought back a bottle. After enjoying the sauce for a couple of days, the pastors asked how she made it. She showed them the bottle and it was full of "fire ants" and also had a tarantula inside! Oh well, you have to ask what kind of food you are eating and even then, sometimes you do not know!

In April I made a trip to a Hispanic speaking country with a group. I was sick the whole week, but we were able to go to all of the services while some of our team did the preaching. Economically things are a lot worse - as if they weren't already having enough problems! Their main export is sugar cane and now "they" have decided that the farmers will not be permitted to grow sugar cane!!! It just doesn't make sense!! They now only have 4-6 hours of power a day and thousands have fled this one island. It has been speculated that a million people may have fled over the last year!

For 23 years we have supported these preachers and their families. This allows them to live and work in their ministry. Pray for them as they struggle to survive. They remain encouraged and believe the Lord will supply their needs. We were able to buy several bicycles and Bibles on the last trip. Also, through the help of several churches, we were able to provide funds for several church buildings.

Please continue to pray for my wife. She is struggling with taking a preventative cancer medicine due to its many bad side effects.

Joyfully Yours,

Farren Caeble
